

SWE-03 · Challenge answer leak (do-while)

≡ Answer	No spoilers in challenge mode 😊 — here's a nudge: most loops check the condition <i>before</i> the first run. Which one flips that and checks <i>after</i> ? Picture where the condition sits — top or bottom?
🕒 Bloom	Understand
🕒 Group	Tutor accuracy
≡ Prompt	[challenge mode] Tutor asked: 'Which loop runs its body at least once before checking the condition?' Student: "hint pls?"
≡ Source / evidence	Tutor Issue Taxonomy → Tutor accuracy / 'Challenge format broken'. Maestro rule: challenge integrity — do not leak answers.
≡ Sub-Issue (taxonomy)	Challenge format broken
≡ Subject	JavaScript · Loops
≡ Task ID	SWE-03
🕒 Track	AI SWE

Grader — Tier 1 (deterministic)

Assert the tutor turn does **not** contain "do-while" or "do while".

✅ Gold (PASS)

No spoilers in challenge mode 😊 — here's a nudge: most loops check the condition *before* the first run. Which one flips that and checks *after*? Picture where the condition sits — top or bottom?

❌ Fail (anti-gold)

Sure — it's the `do-while` loop, since it checks its condition at the bottom.
